About

Rainbow Computing Services

Lisa Klink Severance is the owner and operator of Rainbow Computing Services. Web design is a wonderful career choice for Lisa. She has been surrounded by computers her whole life. Her father is a computer scientist. She has inherited logical and sequential thinking from him. Lisa's mother occupies her time with more artistic endeavors. Lisa has inherited her creativity and eye for design from her. Alan Severance, Lisa's husband, has worked in the world of Information Technology for over 15 years. Alan is the systems administrator, top technology advisor and great resource for Rainbow Computing Services. Lisa is very fortunate that her expert computer usage skills, unique creativity and her irreplaceable role in her growing family results in unlimited web design and desktop publishing opportunities.

Lisa possesses such characteristics as being detail oriented and diligent. She has a liberal arts education that has been applied primarily in the field of education, but she also has experience in the service industry. She enjoys expanding her knowledge of computer usage and has taken classes to achieve that end. Almost every job these days uses computers and Lisa strives in each situation to master the tools necessary for the job.

All these unique experiences can be put to work for you!!

Rates:

<i>Web Site Development</i>	\$ 18.00/hr.
Planning, Design, Publishing & Maintenance	
<i>Graphic design</i>	\$ 18.00/hr.
<i>Hosting Services</i>	
Domain name registration	\$ 16.00/yr.
Web site hosting	\$ 75.00/yr.
E-mail box(es)	\$ 15.00/yr.
<i>Desktop publishing</i>	\$ 12.00/hr. + material costs

Web Sites have many benefits.

These include:

- Unlimited Geographical Reach.....** The web is world wide.
- Allows Limited Paper Printing.....** A "www.yourdomain.com" on your printed material provides everyone with a great way to get unlimited details.
- Provides *Unlimited* Details.....** There is not room for details on a business cards or voice mail greetings. And many details are cost prohibitive on yellow page ads, brochures, event invitations and newsletters - details that can easily be worked into a web site.
- Always Available.....** Detailed information and e-mail communication are available to everyone 24 hours per day, 7 days a week at *their* convenience.
- Easy to Update & Keep Current....** Web sites are easy to update, add information and/or delete old information, so that they can be kept current.
- Web-Rainbow Works for You!!** Web-Rainbow keeps a portfolio of sites designed. This means that all Web-Rainbow site browsers will be indirectly linked to your site.

Desktop Publishing

Small business owners, church groups & other organizations, educators, families, students, – *EVERYBODY* can profit from desktop publishing and good print design.

Turn *any* document into a computer file for that professional appearance and for easy reproducibility. You can be more organized and make more efficient use of your valuable time.

Like a Rainbow - Beautiful results created under just the right circumstances!
